Major General Harold R. Aaron, USA  
 Assistant Chief of Staff for Intelligence  
 Department of the Army  
 Washington, D. C. 20310

Dear Hal,

Reference your memorandum of 20 February, subject: Revised  
 DCID 1/5.

I think there may be some misunderstanding concerning our  
 views about Army participation in the Strategic Warning  
 Staff. It was not our intention to ask the Army for two  
 additional spaces beyond what it was already contributing  
 to the National Indications Center. I regret that the  
 attachments to our memorandum to you were subject to this  
 interpretation.

Rather we would like the Army to continue to participate in  
 the SWS in the same manner that it participated in the NIC  
 by assigning one officer to it or by continuing the assign-  
 ment of the officer currently on board.

This would put the Army representation on the same basis as  
 that of the other services as well as State, NSA, CIA and  
 DIA, and give us a valuable on board analytic input as well  
 as represent the ACSI view in strategic warning matters.

Sincerely,

SIGNED
